EXPLANATORY NOTES

Dates

Consider how the time of year may impact on the wider school program or the effect of seasonal weather conditions.

Educational purpose and program outline

Whatever you hope the students will learn from the program is its educational purpose. The program overview should give school council a basic understanding of how the program aims to achieve the educational purpose.

For example: A three-day residential camp including bushwalking and orienteering to encourage an understanding of the natural environment; develop team working ability; and, introduce map reading and navigational skills in an experiential way.

The supervision strategy should include the nature and level of supervision provided throughout the excursion or activity. You must consider all programmed and non-programmed periods.

Each different location in must be detailed, including the dates at each location. This will have an impact on transport requirements and the emergency response needs of the program.

Contact land managers to determine if permit or access requirements apply for activities that are conducted on public land or in state/national parks.

Joint excursions with other schools must be approved by each school council. Each school must submit an online notification to the Emergency Management and Security Branch.

Overnight accommodation

This includes all forms of overnight accommodation.

Residential camping is at sites with permanent facilities like dormitories, kitchen, showers, toilets, phones and recreation options.

Residential campsites operated or used by Victorian government schools must be accredited with a Department of Education and Early Childhood Development recognised accreditation provider. Refer to the School Policy and Advisory Guide, [Venue Selection](#) for current accreditation providers.

When using venues that do not require accreditation such as caravan parks, motels/hotels or ski lodges, schools may wish to refer to the accreditation criteria of a recognised accreditation provider when developing their risk management plan.

Provide details of all accommodation being used with your submission to school council.

Transport

Internal transport is provided by school-owned or private, staff-owned vehicles. External transport is transport provided by contractors, parents or other external providers.

The parent consent form should include a statement advising parents if a private vehicle is used as part of the emergency management plan for a camp or excursion.

If a teacher or staff member will be driving students, the program should allow them adequate rest time prior to driving, consistent with the advice on the [transport](#) page of the Safety Guidelines.

Give careful consideration to securing equipment during transportation, including equipment on trailers, roof racks and inside vehicles.

Supervising staff

A [Working with Children Check](#) is required for staff members who will supervise students and who are not registered teachers. This does not apply to parent volunteers whose child is participating in the activity/excursion.
